Alerts

Dev Complete

Used for temporary page level alerts. These may convey an error, a warning, or a piece of information that is relevant to the user's specific state in the app.

VARIATIONS

Sentiment

The icon and color combination convey sentiment of the alert.

Positive	Password changed successfully.
Warning/Pending	A payment has already been requested.
Error	You must agree to the terms to continue.
Informational (Low Emphasis)	Heading or single line message
Informational (High Emphasis)	A message we'd like to share that is neutral and informative but higher emphasis.

OPTIONAL ELEMENTS

Explanatory copy

Alerts can use a single text style for short messages or a heading + explanatory body copy.

Single line	You must agree to the terms to continue.
Heading + Explanation	Unable to Complete Transfer You have 1 or more accounts waiting to be verified. To use the account(s) for transfers, verification must be completed.

Call to Action Link

Alerts have an optional link. The link is styled in **semanticError** (red) only for errors sentiment but otherwise is in **actionablePrimary** (green) for all other sentiment variations.

Positive	Password changed successfully. More Details
Warning	A payment has already been requested. More Details
Error	You must agree to the terms to continue. More Details
Informational (Low Emphasis)	A message we'd like to share that is neutral and informative. More Details
Informational (High Emphasis)	A message we'd like to share that is neutral and informative but higher emphasis. More Details

Dismissible

Some alerts may be able to be dismissed by clicking an optional X button.

Not Dismissible	You must agree to the terms to continue.
Dismissible	Unable to Complete Transfer You have 1 or more accounts waiting to be verified. To use the account(s) for transfers, verification must be completed. More Details

NOTES

URC "Alert"

BASE

Basic alerts
The alert offers five severity levels that set a distinctive icon and color.

This is a error alert

This is a warning alert

This is a info alert

This is a emphasis alert

This is a success alert

Alerts must always have an AlertTitle
Alerts can also have explanatory body copy after the title, use p tags for it.

Dismissible
This action can be dismissed (pass an optional onClose handler)

WITH ICON

Custom Icon or Image on Alerts

With Custom Icon
Use the icon prop to pass in an Icon component

Cool!

With Custom Image
