DSM 2.0 Documentation

Documentation Audit

DOCUMENTATION CHECKLIST

1. **Component Overview**
   a. Component name
   b. Platform: Desktop / Mobile / App / All
   c. Status: Draft / In Review / Approved / Deprecated
   d. Contributor: (Designer)
   e. Last updated date

Purpose
   a. What is it?
   b. When should it be used?

2. **Anatomy**
   a. Visual breakdown with labeled parts (Container, Label, Icon, Input etc.)
   b. Required vs optional elements clearly defined

3. **Variants**
   a. Size variants (S, M, L etc.)
   b. Style variants (Primary, Secondary, Tertiary, Destructive etc.)
   c. State variants (Default, Hover, Focus, Active, Disabled, Loading, Error, Success)
   d. Layout variants (Inline, Stacked, Full-width etc.)

4. **States & Behavior**
   a. Interaction states (hover, pressed, focus, keboard focus)
   b. Error behavior
   c. Haptic Feedback (if needed)
   d. Responsive behavior (min, max-width)
   e. Edge cases

Include:
- What triggers the state
- How long it persists
- What resets it

5. **Usage Guidelines**
   a. When to use
   b. When not to use
   c. Content guidelines (tone, character limits, truncation rules)
   d. Do / Don't examples (at least 1 visual example)

6. **Accessibility**
   a. Keyboard interaction rules
   b. Focus order
   c. ARIA guidance (if applicable)
   d. Color contrast compliance
   e. Touch target size (especially for mobile)

7. **Responsive Rules**
   a. Breakpoints supported
   b. Behavior change at each breakpoint
   c. Stacking logic
   d. Truncation rules

8. **Dependencies**
   a. Related components (e.g., button depends on icon, badge, spinner)
   b. Required wrappers or layout constraints
   c. Product-specific overrides (if any)

9. **Engineering Notes**
   a. Link to Storybook
   b. Version number
   c. Breaking changes documented
   d. Migration notes (if replacing an older component)

10. **Real examples in products**

DOCUMENTATION

Accordion/Collapsible	Documentation Needed
Alerts	Documentation Needed
Account tag	Documentation Needed
Balance summary	Documentation Needed
Bank tile	Documentation Needed
Bank set up tile	Documentation Needed
Buttons	Documentation Needed
Call out box	Documentation Needed
Checkbox	Documentation Needed
Day picker	Documentation Needed
Donut chart	Documentation Needed
Divider (Horizontal Rule)	Design & Documentation Needed
File upload	Documentation Needed
Filter and sort	Documentation Needed
Footer	Documentation Needed
Global alert	Documentation Needed
Header	Documentation Needed
Inputs	Documentation Needed
Icon text	Documentation Needed
Language selector	Documentation Needed
Loading	Documentation Needed
Logo	Documentation Needed
Modal	Documentation Needed
Navigation bar	Documentation Needed
Number Input (Move to Input and rename to Security code?)	Documentation Needed
Page titles	Documentation Needed
Pagination dots	Documentation Needed
Pictogram link (Action tile/card?)	Documentation Needed
Product tiles	Documentation Needed
Progress bar	Documentation Needed
Radio button	Documentation Needed
Response Chips	Documentation Needed
Ribbon	Documentation Needed
Rows	Documentation Needed
Search Input	Documentation Needed
Segmented buttons (Tabs?)	Documentation Needed
Select (Missing native popover)	Documentation Needed
Selectable tiles	Documentation Needed
Slider	Documentation Needed
Status (add secondary status from Steph)	Documentation Needed
Stepper	Documentation Needed
Surface	Documentation Needed
Subnavigation	Documentation Needed
Tables	Documentation Needed
Tabs	Documentation Needed
Transaction details page	Documentation Needed
Transaction row	Documentation Needed
Toast (update using latest design from mobile app)	Documentation Needed
Tooltips (include trigger elements e.g. info icon, dashed lines)	Documentation Needed
